COSMÉDIQUE

# ABOUT COSMÉDIQUE

SINCE. 1985

## Rigorous Standards

Manufacturing cosmetic products begin with the use of safe, reliable, and effective materials and honoring clients' needs.

## Professional skills & Sophisticated equipment

We proudly guarantee the quality of our products based on the professional knowledge and know-how of our senior researchers with 35+ years of experience and sophisticated manufacturing equipment.

The image shows a modern interior space with a large, illuminated sign on a wall that reads "COSMÉDIQUE" in white capital letters on a dark background. Below the sign, a potted plant with green leaves is visible. The overall aesthetic is clean and professional.

# PROMOTION FOR NEW CLIENTS

- We are able to accept the minimum order quantity of 1,000 units for new customers (depending on the products. Please refer to the appendix for more details on minimum order quantity for different items).
- COSMEDIQUE retains even a separate small manufacturing system and a container label printing room to facilitate a small quantity turn-key manufacturing. We have started this sales promotion to ensure co-growth and co-prosperity with our new customers launching new businesses. We are committed to build and maintain a confident and long-lasting relationship with our customers.
- The average minimum order quantity for each item is 5,000. Please note that the order amount of less than 5,000 is most likely to increase the price and to limit the type of containers available due to lower production efficiency.
- We are able to provide the best quantity with good packaging at the lowest MOQ available in the Korea market. MOQ of a product depends on type of packaging and ingredient used.

# COSMEDIQUE'S BRANDS

## DR. JECORI

[www.drjecori.kr](http://www.drjecori.kr)

DR.JECORI is a beauty product brand specializing in plant cell and stem cell with the Swiss Edelweiss callus culture extract used as the main ingredient.

DR.JECORI products boast of their superb anti-aging effects thanks to the Nobel Prize-winning epidermal growth factor (EGF) and French-native Volufiline.

You may purchase samples of your interest at wholesale prices.  
Feel free to send us the list of your interested items by email.

# COSMEDIQUE'S BRANDS

[www.ddell.kr](http://www.ddell.kr)

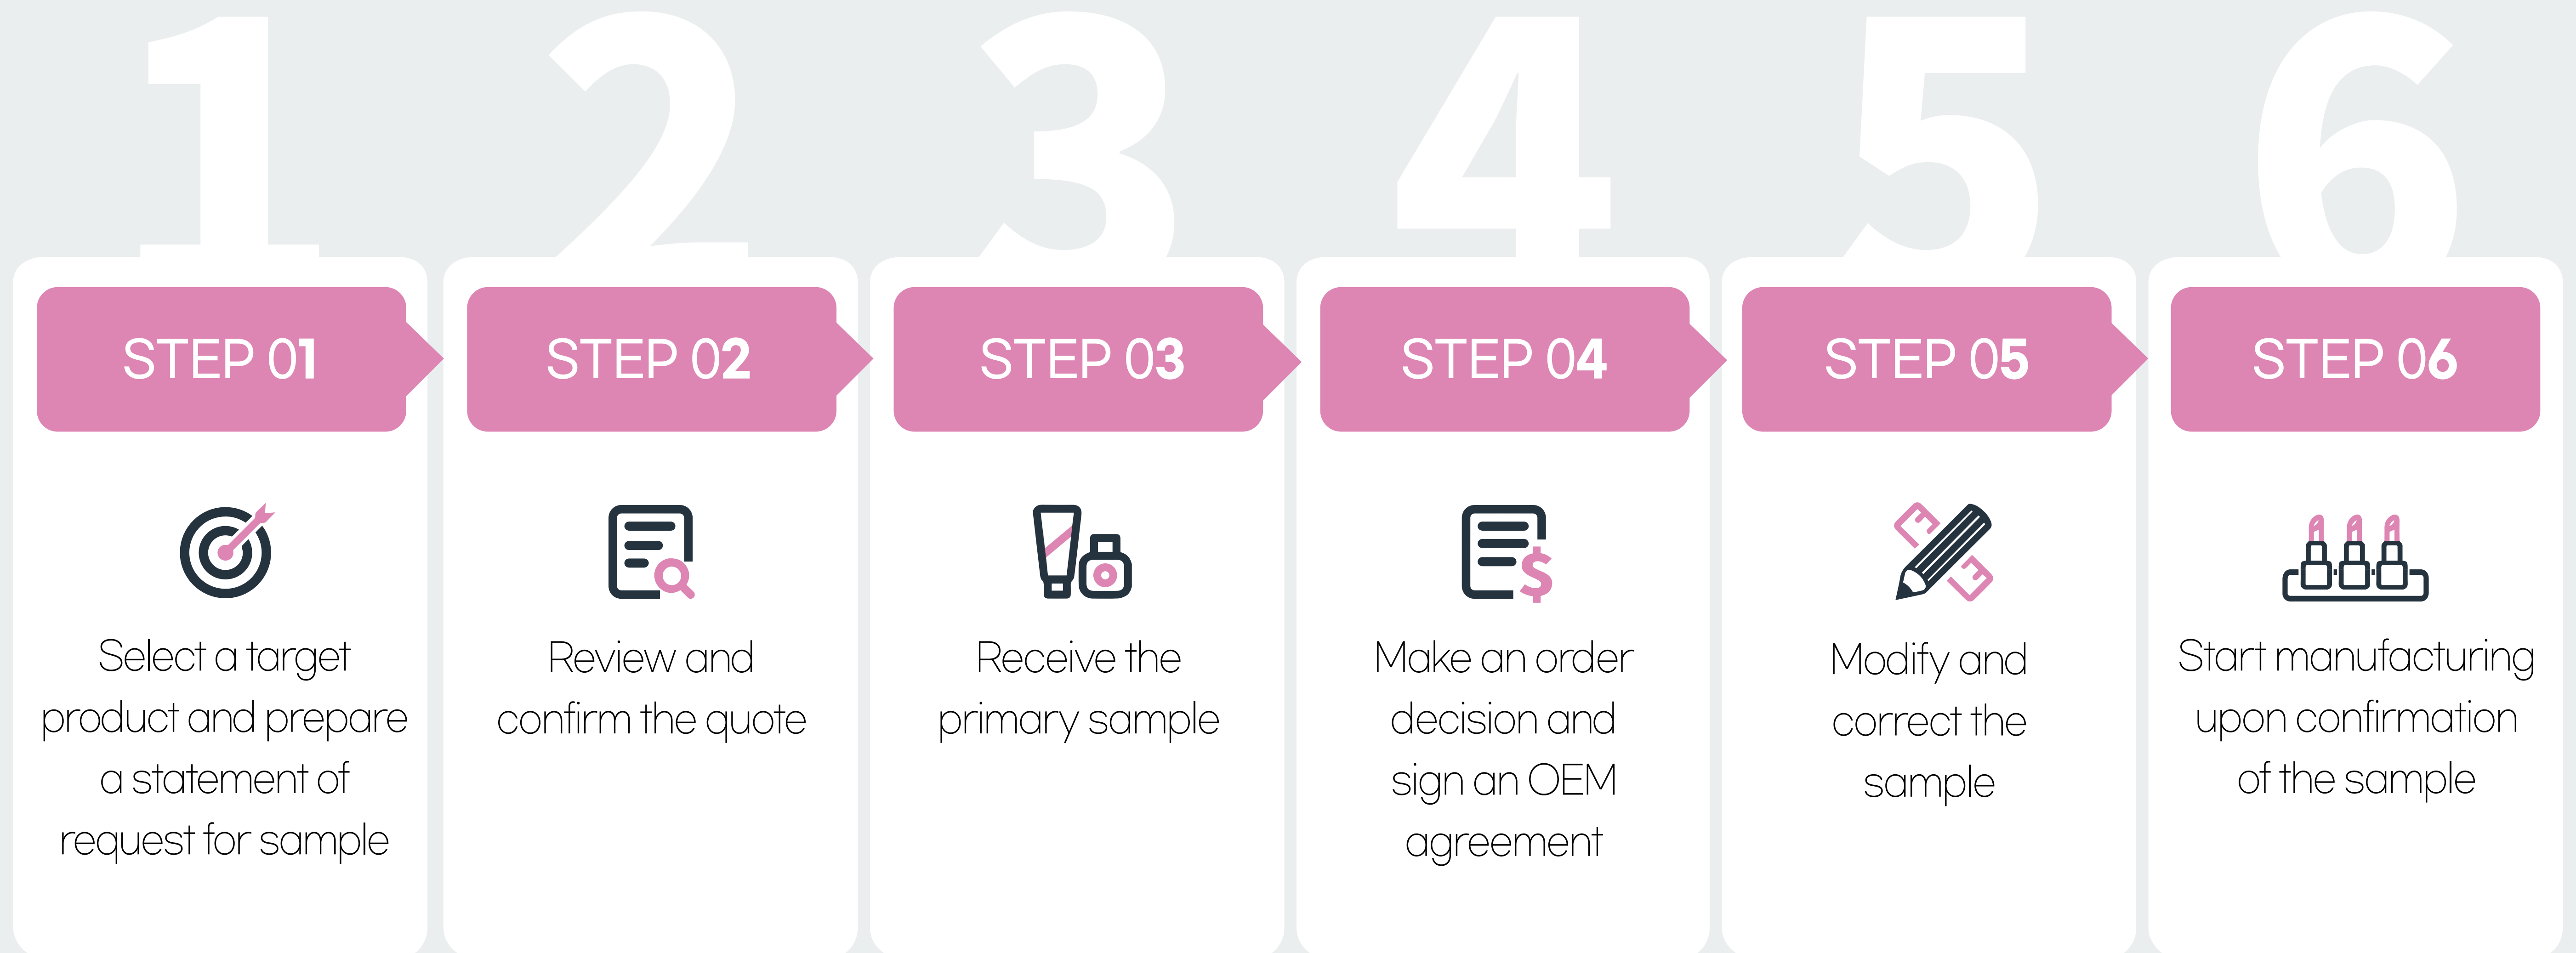

DD'ELL is a Korean brand that produces skincare and base makeup products. DD'ELL's foundations and cushion compacts are the best-selling products for over 10 years. Check out our K-Beauty products now!

You may purchase samples of your interest at wholesale prices. Feel free to send us the list of your interested items by email.

# OEM PROCESS

# DESIGN PROCESS

## HOW IT WORKS?

### STEP 2

Make a decision on your product name and select some target designs

### STEP 4

Confirm the design and provide us the rest copy for both container and box

### STEP 1

Choose a container for your product first

### STEP 3

Receive the first design proposal and request a modification

### STEP 5

Confirm the final design file

# FAQ

## DO YOU HAVE SOME QUESTION?

How can I request for samples?

If you send us your inquiry for samples with detailed information, we will send you a price quote based on the order quantity. We are able to provide you with samples upon completion of an initial agreement on the quantity and price.

How can I request for samples?

The cost for design is \$1000 per product, including container and box. You may get a discount if you order multiple products with the same design concept.
